Exponential Giveback Plan

5

“Happiness is doing your own thing in the interest of others and knowing that without others nothing happens.”

-Earl Nightingale

As part of our new market entrant policy, our Give-back Plan is design on a Freeway Matrix Structure. We are overly interested in making the complex so easy and simple for all clients. Since we exist because the society allows us to exist.

So we think we have the responsibility and obligation to help improve lives. we are overly obsessive in figuring out the sweet spots, participation trophies and decoupled our clients income from their time inputs. Hence, this plan. It allows all members to benefit from all additional new volume that flows into the company after they join and not pay on personal group volume or limited volume based on sponsor's enroller tree.

This is structured to pay you on all volume beside you and below you and guarantees you, an income on each payout loop. As a company that is radically generous, you will cruise the following cash give-backs and bonuses upon your subscription to our pioneer **Privilege Membership Plan**;
